

SITE CAPABILITY & FACILITY PROFILE

Belkis Delgado, MD PA – Clinical Research & Trial Facility

4487 NW 36th Street | Miami Springs, FL 33166 | United States

Phone: 305-390-9167 | Fax: 786-217-6873 | Cell: 305-342-9140

Email: Dr.belkis@delgadomdpa.com

SITE OVERVIEW

A 2,300 sq. ft. state-of-the-art, physician-led clinical research and trial facility designed for compliant, efficient, and patient-centered early and late phase studies, including hybrid and decentralized models.

INVESTIGATORS & STAFF

- 4 Principal Investigators | 4 Sub-Investigators
- 6 dedicated research staff | 2 dedicated recruiters
- >10 hours/week PI availability per study
- Formal back-up PI/Sub-I coverage maintained

FACILITY & CLINICAL CAPABILITIES

- 4 fully equipped exam rooms
- 10 inpatient beds
- Dedicated PK/IV infusion area with recliners
- Telemetry monitoring, ECG, diagnostic ultrasound
- Blinded & unblinded pharmacy (double-locked; ambient & refrigerated; NIST-monitored)
- 2 laboratories with ambient & refrigerated centrifuges, -80°C & -20°C freezers
- CLIA-waived laboratory certification

EQUIPMENT & INFRASTRUCTURE

Freezers, oximeters, crash cart, nebulizer, Welch Allyn ophthalmoscope/otoscope, manual & digital BP machines, digital/beam/BIA scales, hand dynamometer, spirometer, FeNO, IV pumps. All equipment calibrated and validated with documented QA/QC.

THERAPEUTIC EXPERIENCE

Cardiology, Endocrinology, Nephrology, Neurology, Infectious Disease, Psychiatry, Pulmonology, Obesity, Internal & Preventive Medicine, Dermatology, Rheumatology, Pediatrics, Hematology, Urology, Healthy volunteers.

PATIENT ACCESS & RECRUITMENT

- ~8,000-patient database
- 5+ affiliated referral practices across multiple specialties
- Proven recruitment via internal database, physician referrals, digital outreach, and community engagement

DECENTRALIZED, START-UP & QUALITY

- Fully decentralized & hybrid trial experience (eConsent, ePRO, tele-visits)
- Contract execution typically <2 weeks | Central IRB capable
- FDA-inspected with multiple audits resulting in No Action Indicated (NAI)
- HIPAA-compliant data handling, SOP-driven operations, GCP-trained staff

PARTNERSHIP OPPORTUNITIES

Early & late phase trials | PK/PD & IV infusion studies | Patient monitoring & data collection | Collaborative research partnerships
